Claims 1, 5, 7-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 5, 8, and 9, "matrix-type" is vague; it is unclear as to whether a matrix is definitely claimed. Applicants' citation of a treatise to indicate that the language is understood in the art does not overcome the rejection because the figure shown is merely illustrative. That is, the treatise does not define what is meant by "matrix-type".

In claim 9 "styrene" is indefinite. Is styrene intended?

In claims 1, 8, and 10, "dichlorofenac" is indefinite; is "diclofenac" intended?

The disclosure is objected to because of the following informalities: On page 4 line 8 and in the examples, "dichlorofenac" is indefinite; is "diclofenac" intended? On page 7 third line from bottom et seq and in the examples, "styrene" is indefinite; is "styrene" intended. Applicants are strongly advised to locate all appearances of these terms in the specification for correction.

Appropriate correction is required.

No claims allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1616

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
